

Message from Carlos Perez del Castillo (Consortium Board Chair) to Inger Andersen (Fund Council Chair)

September 27, 2011

Dear Inger,

I have great pleasure in attaching the revised CRP 3.4 proposal: "Root, tubers, and bananas for food security and income" received from the proponents.

I also attach a letter from the lead center (CIP) submitting this revised version to me and indicating that they addressed, in attached documents, the comments received at the last Fund Council Meeting. Due to mail-box capacity, I will send the annexes in a separate e-mail.

Looking forward to the consideration of this important CGIAR Research Program.

Best regards,

Carlos
