

Message from Carlos Perez del Castillo (Consortium Board Chair) to Inger Andersen (Fund Council Chair)

September 23, 2011

Dear Inger,

I have great pleasure in attaching the revised CRP 5 proposal "Water, Land and Ecosystems: Improved natural resources management for food security and livelihoods" received from the Director General of the International Water Management Institute.

I also attach the letter from the lead center (IWMI) indicating its replies to comments received at the last Fund Council meeting.

Looking forward to the consideration and approval of this important program at the November Fund Council meeting.

Best regards,

Carlos
